

Technician Training Across the US

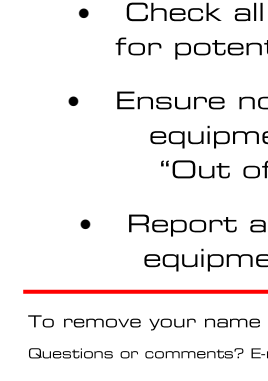

US Sport Tech is always striving to give our clients the highest level of quality service, and in order to do so we keep our [technician staff](#) highly trained on all of the latest technology from the major manufacturers of health and fitness equipment. In the recent months members of the US Sport Tech Team traveled to the [Life Fitness](#) and [Precor](#) headquarters for extensive training on their newest equipment, software updates, common diagnostics and repairs, preventative maintenance procedures, and much more. We are excited to continue our partnership with these and many other [recognized manufacturers](#) as a certified maintenance and repair service provider!

Upcoming Events

On October 19, 2013 the US Sport Tech Team will be attending the [American Physical Therapy Association of New Jersey's Fall Conference](#). This year's conference will be held at Rutgers Health Science Campus in Newark, NJ.

Meet our Newest Technician!

Meet Dave! Dave is our newest Biomedical Equipment Technician. He has a background of over 15 years in Applied Science and Technology, and Electronics. A graduate of DeVry University, we are thrilled to have Dave be a part of the [US Sport Tech Team!](#)

Get the Most out of your PM Visits

US Sport Tech strives to ensure that you get the most out of your investment into your equipment, but there are ways to protect your investment between PM visits too! Take a look at these simple Dos and Don'ts for your fitness equipment!

Do

- Wipe down all pieces of equipment daily
- Check all equipment daily for potential safety issues
- Ensure no one uses faulty equipment and put up "Out of Order" signs
- Report any broken down equipment immediately

Don't

- Spray cleaning agents directly on equipment
- Spray the walking belt of a treadmill
- Ignore reports of faulty equipment
- Attempt to repair any issues that you are not experienced with
